

Bharat Bulk Handler

गलत पार्टी में बने बिल, एक स्क्रीन पर सही पार्टी में

Move bills to the right party in BUSY, many at once

Bills posted to the wrong party? Pick the ledger, see all its vouchers, **set the right party on each row** (or paste a list) and **press Save once**. BUSY re-posts the ledger, balances and GST itself.

Runs inside BUSY 21 (Add-Ons menu)

All voucher types

Excel-like copy / paste

One Save for many bills

Backup + undo

Follows BUSY user rights

SAVE (F2)

Vouchers of the ledger. Pick the ledger and every voucher of the open year is listed with type and amount. Demo data.

What Bharat Bulk Handler does

Find the ledger in a second

Type a few letters of the party name (F4); the ledger's vouchers of the open year are listed with date, number, type and amount.

Choose which vouchers

Filter by voucher type and period; the financial year open in BUSY is set by default.

New party on every row

Double-click a row to pick the new party, or work like Excel: Ctrl+C, Ctrl+V (one name fills all selected rows, a list fills row by row), Ctrl+D fill down, Del clear.

One ledger, many parties

Bills of one ledger can go to several parties in the same Save.

Search as you type party list. Type a few letters and choose the right party for the selected rows. Demo data.

New party per row. Amber rows have a new party: one ledger's bills can go to several parties in one Save. Demo data.

Search as you type party list. Type a few letters and choose the right party for the selected rows. Demo data.

Search-as-you-type party list. Type a few letters and choose the right party for the selected rows. Demo data.

More features

Saved the BUSY way

Each voucher is re-saved through BUSY itself with only the party changed, then read back and checked. BUSY recalculates ledgers, balances and GST.

Backup and undo

The original of every voucher is saved before it is changed, with an audit log; undo the last save if needed.

Follows BUSY user rights

Opened from the Add-Ons menu it uses the logged-in BUSY user and company: no second login, and only what that user may change.

Works only inside BUSY

No outside program, no company switch: safe for your data and simple for your staff.

How it works

1

Install

Close BUSY and run the setup; Bharat Bulk Handler is added to BUSY's Add-Ons menu.

2

Open from BUSY

Add-Ons menu; the open company, year and user are used.

3

Pick ledger, set party

Choose the wrong ledger, set the right party on each row or paste a list.

4

Save

F2 saves all rows; each voucher is checked after saving.

Key facts

Version	v1.2.1 · 2026-10-15
Works on	Windows 10, Windows 11 with BUSY 21
Start	Free trial on registration
Status	Ready to download

Prices on request; 18% GST extra at final billing. Order on WhatsApp, pay by UPI, setup and training help included.

Questions

Which vouchers can be corrected?

Sales, purchase, returns and debit / credit notes (party field), and receipt, payment and journal (the party line, when the old ledger appears once in that voucher).

Is it safe?

Every voucher is saved by BUSY itself with only the party changed, and the original is backed up first. We still suggest a BUSY backup before a large correction.

Which BUSY versions?

BUSY 21 on Windows. It runs only from BUSY's Add-Ons menu.

How is the licence handled?

Online through our licence server: register once from the add-on and get your Subscription ID. Without an active licence the screen will show a warning.
