BUSY यूज़र्स के लिए

01 • DASHBOARD

कंपनी का डैशबोर्ड

सेल, परचेज़, खर्च, ग्राँस और नेट प्रॉफिट, क्लोज़िंग स्टॉक — पहली ही स्क्रीन पर। टॉप आइटम, टॉप पार्टी, महीने-वार ट्रेंड।

Company dashboard. Sales, purchase, expenses, profit, top items and parties on the first screen. Company and party names hidden.

What Bharat Lekha Jokha does

Item Trading A/c, like your accountant's

Opening, purchase, purchase return, sales, sales return, stock transfers, shortage / excess and closing stock with quantity and amount on both sides, ending in gross profit.

Item, group, HSN and tax-rate views

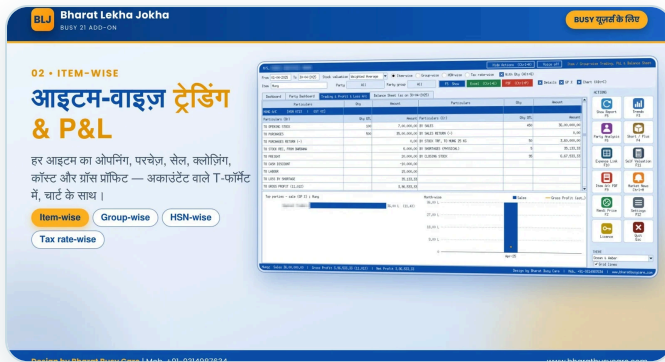

Roll the same report up by item group, HSN code or GST rate. Each view with or without quantity, one key to switch.

P&L and Balance Sheet

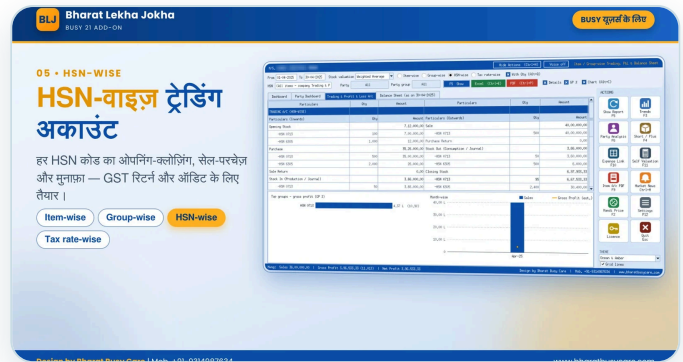

Trading A/c with item or group-wise gross profit, Profit & Loss starting from it, and the Balance Sheet as on the To date.

Freight, labour and discount per item

Bill sundries of each bill are shared over its items; expense ledgers named after an item are charged to that item, so net profit is real.

Item-wise Trading & P&L. Trading A/c for every item with quantity and amount, gross profit and chart. Company and party names hidden.

HSN-wise Trading. The same report rolled up by HSN code for GST returns and audit. Company and party names hidden.

More features

Your valuation, not ours

Closing stock valued the way your BUSY company is set: weighted average, FIFO or last purchase.

Dashboard and party analysis

Opens on a company dashboard: sales, purchase, expenses, profit, top items and parties, with item / group / party filters by month or year.

Trends and stock short / plus

Period trends with charts and smart suggestions, and a short / excess stock check.

PDF and Excel

Item accounts, Trading & P&L and Balance Sheet in PDF with your company header, and Excel for your CA.

Questions

Does it change anything in BUSY?

No. Bharat Lekha Jokha only reads the company data and prepares reports.

Does it work with SQL companies?

Yes, both Access (.bds) and SQL Server BUSY companies. Access data needs the free Microsoft Access Database Engine 2016 (x64); SQL data needs Microsoft ODBC Driver 17 (x64).

Which BUSY versions?

BUSY 21 on Windows 10 / 11 (64-bit). It runs only from BUSY's Add-Ons menu, never as a separate program.

How is the licence handled?

Online through our licence server: register once from the add-on, get your Subscription ID, and the PC checks in at least once every 30 days.
